## **Rwandan armed forces Deployed in Congo (FARDC)!**

To divide today with 01:02 - A new entry with the Congolese political dictionary: Fardc = Rwandan Armed forces Deployed in Congo. According to Resistant May-May of FIZI-BARAKA, what is called today Fardc in Kivu are Rwandan Armed forces Deployed in Congo since the operation Umoja Wetu, Kimia I, Kimia II to prepare the ground with the Rwandan occupation of Kivu. The words are thus again trapped! May-May of FIZI-Luck say being today attacked by Rwandan soldiers while Kinshasa known as to have deployed Congolese Armed forces. Who tells truth! The war of Congo thus changed aspect. The capacity of Kinshasa chose the camp of certain great powers supporting the occupation Rwandan, Ugandan, and Angolan of R.D.Congo. Resistant Congolese, as for them, chose the camp of the fatherland. The vocabulary of the war also changed. The acronym "Fardc" results now in "Rwandan Armed forces Deployed in Congo" for May-May. . Resistant Congolese of Ecuador qualifies already the troops come to fight them of Kinshasa of "troops of occupation" to the pay of Kigali. By losing the confidence of the Congolese people and while deciding to use the force against those which reproach him its mislaying, Kinshasa would be thus spirit to lose the legitimacy of its capacity! Also, so for Kinshasa, UNO and certain great powers the war is finished in Congo, for resistant Congolese, it does nothing but start or start again. . To see this situation of near, one can say that it is the uncertainty which is

profiled again at the horizon of the country of Lumumba!  
Institutions resulting  
from the elections of the 2006 having been made obsolete and  
inoperative, reason  
of most extremely and of highest offerer made the law. The  
acts of sovereignty  
as the vote of the laws of the country, the elections of a  
governor of  
province, are monnayent with the great day and their  
denunciation is not the  
subject judicial of enquiry. Good-bye the democracy and return  
to the box of  
the departure, that of the exploitation of R.D.Congo by  
foreign powers using a  
handle of Congolese elites to satisfy the needs for the  
foreign powers. In  
other words, it is the return to colonialism, with an  
innovation: military  
occupation Rwandan, Ugandan, and Angolan of the country. .  
With Congolese to  
take again the working control of their country and to invent  
themselves the  
wheel of their progress the national hero following the  
example of Kimpa Vita,  
Simon Kimbangu, Lumumba, Mzee LDK, Mgr Munzihirwa, Mgr  
Kataliko, and I pass  
from there who must be turned over today in their tombs by  
learning what them  
posterity made of the revolution that they paid of their life.
